J. F. Bolton, hailing from Lynchburg, the same man who was arrested and discharged two weeks ago on the charge of complicity in the robbery of the store of Mr. James Smith, found lurking around the Fairfax street depot and arrested as a suspicious character, was sent to the work house for 20 days. Mary Bright, for abusing Edmonia Wilkins, both colored, was dismissed as the charge was withdrawn. A warrant was issued by Justice Beach for the arrest of James W. Davis, who was charged by his wife with desertion, with threatening to assault and beat her, and breaking into her house. James Brown, for insulting ladies on Vinegar Hill, was fined and discharged.

NEW TUG BOAT—The new tug boat, the Samuel Gedney, noticed in yesterday's Gazette, arrived yesterday and proceeded to Washington. She left Philadelphia at 10 a. m. on the morning of the 19th, passed Point Lookout at 7 a. m. yesterday morning, and after touching at all the principal landings on the Potomac reached here at 4 p. m. Her owner, Captain Spranzky, and some invited guests from Washington and the city, among whom were Capt. Samuel Gedney and Mr. William Ewing, came around in her, and had a delightful trip. Pilots Richard McKenny and Fox Bailey, of this city, boarded her at Piney Point. She is a first-class steam tug, is fitted up in beautiful style, is six feet, six inches longer than any tug now on the river, and has powerful propelling machinery.

SUNDAY SCHOOL EXHIBITION—The entertainment given last night at Sarepta Hall by the Sunday-school of the M. P. Church, consisted of pleasant dialogues, fine choruses, well rendered quartettes, &c., which attracted and pleased the large audience that was present. The young ladies displayed very fine declamatory powers, and their easy manners and modest deportment were admired by all. "Mrs. Harrington" was especially good, and her elocutionary powers were excellent. The male participants executed the parts assigned them with great credit to themselves and added considerably to the pleasures of the evening. This school is under the management of Jefferson Tacey, esp., and is in a very fine and prosperous condition.

THE MARKET this morning was well supplied. The butchers had good fresh meats at former prices. Vegetables are quite abundant. New potatoes 80 cents per peck; green peas 20 cents per peck; snap beans 50 cents per peck; beans 10 cents per bushel; early corn cabbage 10a 20 cents per head; corn 10a 10 cents; lettuce 25 cents per head; onions 25 cents per bushel. NEW WHEAT—The first new wheat offered in this market this season was a lot of 400 bushels river wheat, received by Messrs. Beckham, Delaplane & Co., and by them offered on change this morning. The quality of the sample was "good" and \$1.50 per bushel was offered and refused for the lot. The first new wheat offered last year was a lot of 24 bushels on June 24th by Messrs. G. H. Robinson & Son and was sold at \$1.80, for a "good" sample.

The Captured Modocs.

NEW YORK, June 21.—A. B. Meacham, Chairman of the Peace Commission, to treat with the Modocs, and who narrowly escaped the fate of his associates, General Canby and Dr. Thomas, is in this city on his way to Fort Kalmath where the military commission for the trial of the captured members of the band will sit. Meacham has no use of his right hand, the nerves of which were paralyzed by a ball through the wrist. The fore finger of his left hand is twice the natural size. There still remains a slight scar on his forehead from a ball and from the same cause a lump is on the right side of his head. Other wounds received on the ear, in the side and elsewhere have entirely healed. His story of the treachery which resulted in the death of Canby and Thomas is but a reiteration of that already told. Meacham says that himself and the others had full information of the fate in store for them, but as Canby and Thomas would not accept the warning he could not remain behind while they went into danger. It was Captain Jack who gave the signal for the slaughter and shot General Canby, while Old Schonclun attempted to himself with pistol and knife. In the issue of the forthcoming trial he expresses no doubt, but the Modocs who participated in the assassination will be convicted and executed. The effect of a virtual acquittal or pardon after conviction would be disastrous; with such result before their eyes turbulence of other tribes could not be constrained. The white men who murdered the Modoc prisoners should be hanged, Meacham thinks, on the same gallows with the Indian murderers. During the war the Modocs killed and wounded about three soldiers for every warrior in their force at one time numbering not more than thirty-five, and that during the first three days fight, they not only held out against eight hundred troops armed with every appliance of modern warfare, but kept a passage open for retreat, which even the Warm Spring Indian scouts could not close. Meacham advises that those not guilty of participation in the massacre be remanded to their reservation. To distribute them among other tribes would be punishment to some only. His idea of the best policy for the future is that all tribal lines be abolished, and that the Indians be made amenable to the laws and be placed on the same footing with other murderers in the community.

Extensive Fire—Loss of Life.

POTTSVILLE, PA., June 21.—This afternoon a fire broke out in the planing mill of Charles Martzlin, on 28th street. The wind blowing briskly from the northwest the flames soon spread to the adjoining houses. The entire block bounded on the east by 2d street, on the west by 3d street, north by Minersville Road, south by High street, composed of stores, shops and dwellings was destroyed. Kopitzsch's extensive soap and tallow chandlery was completely destroyed; insured for \$100,000. The sparks were blown over the principal portion of the town, and on Centre street a number of stores and residences were set on fire. Clors' confectionary, six squares off, took fire and was considerably damaged, but was speedily extinguished. The fire gaining so rapidly in the upper section of the town, and several stores taking fire in the business portion on Centre street, and many of the citizens becoming alarmed and fearing a general destruction of property, telegraphed to the surrounding towns for assistance, which was promptly responded to by running special trains from Manoy city and Tanamunga. The Minersville and St. Clair Hose Companies ran their four miles on foot, hauling their reel and hose in sixteen minutes. Forty buildings were consumed, principally tenement houses. One child was killed and supposed to have been burnt. Another was seriously injured by jumping from a second story window, and a gentleman was hurt severely. Several firemen were wounded by the falling of debris, and others were severely burned. The loss is estimated at \$120,000; insured for \$50,000, principally in home companies.

Another Fire.

DETROIT, June 21.—The great East Saginaw, yesterday, destroyed 700,000 feet of lumber, some twenty small tenement houses, six residences, sweeping about all the buildings on the square bounded by Washington, Cass, William and Hayden streets. King Oscar Interviewed.

NEW YORK, June 21.—A ten column account of a recent interview with King Oscar, of Sweden, is published here this morning wherein the King is represented as saying, he had for many years been desirous of visiting America. I should have gone to America when I was a Prince, and it was always my intention, but many duties devolved upon me, and in later years when my brother's health improved, I could not leave. Now I am King, and the best place for a King to be is in his country. I mean to send my son, the Prince, as soon as his studies are far enough advanced to permit him to travel, as did the Prince of Wales. The Swedish people in the States will be glad I know to see him. All the accounts we receive show that they are welcomed by the Americans.

The Search for the Polar.

The Tigress is expected to reach the Brooklyn navy yard on Monday, when the work of fitting her out will be immediately commenced in order that she may leave for her cruise on the 4th or 5th of July. The Tigress will be provisioned for two years.

"IMITATION OYSTERS."—The oyster of Virginia will be likely to suffer if there is any truth in the report which reaches us that a man in Maine has discovered a compound that is equal to our delicious bivalve. It seems that his patent oyster is made out of flour, tapioca, salt and water. The inventor puts these in second-hand oyster shells, which are carefully glued around the edges. We should like to see one of his real imitations of the York River or Lynnhaven Bay oysters. What next?—Lynchburg Virginian.

There were seven suicides in New York yesterday.

LOCAL BREVITIES.

We regret to record the death of Mrs. Mary R. Chichester, widow of the late Capt. Chichester, of Fairfax county. She died at her residence in Fairfax on Thursday last. Sometime since she was injured by being run over by a wagon in Washington, and had been a sufferer ever since—never entirely recovering from the shock. She was a most estimable and esteemed lady.

Some complaint was made to the Superintendent of Police this morning of the driving of piles in King street dock for the use of the street railroad, but that officer declines interfering, saying that the City Council had given the railroad company authority to build their road and that he could not interfere with them as he was certain they would not go beyond their privilege.

The Georgetown Courier complains of the detention of a party of ladies and gentlemen from Georgetown who left there on the day last for Carlin's Springs, in consequence of "no connection being made, at the proper time between the Alexandria railroad and the W. & O. R. R." We suppose the detention was accidental
